EDUCATION

Full-Stack Program

Le Wagon

09/2018 - 11/2018 Amsterdam, Netherlands
<https://www.lewagon.com/>

International Programming School offering a 9h-19h Intensive Development Boot-camp covering full-stack technologies.

- Learnt Ruby in depth while solving daily challenges
- Created projects using frameworks like Sinatra, Middleman, and Ruby on Rails
- Used HTML & CSS extensively during the development of the projects and learnt about responsive design
- Experienced working with different databases such as SQLite and PostgreSQL
- Implemented JavaScript in our projects to make them more dynamic
- Learnt the importance of communication and GitHub collaboration when programming in a team
- Integrated advanced features (authentication, payment, geolocation, mailing, search, etc...)
- Deployed projects using Heroku

Accounting

ACCA

01/2016 - 06/2018 Southampton, United Kingdom

LLB Law

University of Southampton

09/2011 - 07/2014 Southampton, United Kingdom

IOB - International Option of the Baccalaureate

Centre Internationale de Valbonne

09/2004 - 06/2011 Valbonne, France

PREVIOUS WORK EXPERIENCE

Finance Assistant

Lainston Management Ltd

05/2017 - 05/2018 Southampton, United Kingdom

Account Assistant

Your Move

02/2016 - 04/2017 Southampton, United Kingdom

STRENGTHS

Fast Learner

Hard Worker

Problem Solving

Logical Thinking

Determination

Debugging

Mentoring

SUMMARY ABOUT ME

When I was 12, I moved to this place called Europe and my life was drastically changed. Since then, whether I visit a new place, meet people from different cultures, eat a new meal, or learn new skills, I am excited to experience the unknown and learn as much as possible. In my pursuit of trying everything that this world has to offer, I found my passion for programming. Now, as a Junior Full Stack Developer, I am eager to expand my knowledge and immerse myself in this profession which is constantly changing and giving me space for improvement.
